Review and Extension — Modular Arithmetic

Andres Buritica Monroy

1 Key concepts for this term

- Definition of mods and least residues
- Interactions of operations and mods
- Inverses
- Fermat and Euler
- Wilson
- GCD Trick
- Euler's product formula
- Chinese Remainder Theorem
- Mods that work with small powers

2 Homework

Solve and submit any three problems from the Problems sections of this term's handouts that weren't covered in class.

Also complete the feedback form: `https://forms.gle/fR78jMzBeHKWy7nM7`
